### REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance:

A search of the prior art failed to uncover a reference that either teaches 2,2-dichloro-1-(2,4,5-trimethylphenyl)ethanone, or suggests to those of ordinary skill modify any known compound to provide this compound (below).

Accordingly, any associated reaction for its preparation is also not suggested by the prior art, which is required by step (a) of claim 3.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

### ***Priority***

Applicant is not afforded the benefit of the priority document, DE 10215294.2 , since this application was filed more than 30 months (04/08/2002) from the filing dated afforded the captioned application (04/01/2005). See M.P.E.P. § 1893.01(a)(1) ("To begin entry into the national stage, applicant is required to comply with 37 CFR 1.495

(b) within 30 months from the priority date. Thus, applicant must pay the basic national fee on or before 30 months from the priority date and be sure that a copy of the international application has been received by the U.S. Designated or Elected Office prior to expiration of 30 months from the priority date.").

### ***Conclusion***
